Regarding planning permission

No 3/2023/0105

I am unable to post on your Web page as it does not accept my address on the drop down menu so please post this on my behalf.

Many thanks.

1). There is already planning permission for a large garage at the side of the property and now planning permission is being sought for a large garage with 3 windows a front door and a bathroom so I would query its usage as a garage.

2). The proposed garage would sit aprox 2 foot at the [REDACTED] there are aprox 8x30ft trees and I would be concerned that these would be removed or damaged with the digging of the foundations they have already been stopped by a neighbour after trying to dig up the trees with a digger [REDACTED]

3). The request for increased roof height with skylights would result in loss of privacy
