## Product Details

The Cortina 9ft 2" x 7ft Shed is modern in every way. With a slanted roof above a band of windows, it boasts a sleek, contemporary design that stores your belongings in eye-catching style. Its double-layered walls are made from Evotech, an innovative composite material that gives you the aesthetic look and feel of wood but with the benefits of resin. This extremely durable shed is completely weather-resistant and maintenance-free – it won't rust, rot or peel. Add in features like steel reinforcements for extra strength, lockable double doors for security and convenience (lock not included), 2-sided ventilation, a roof that can support a snow load of up to 150kg(330 lbs), and a heavy-duty floor tough enough to support a riding mower, and you have a shed that works hard and looks great doing it.

### Features:

- Made of innovative wood composite Evotech panels, for an elegant natural wood look and feel
- Extremely durable and strong, double-wall construction
- Steel-reinforced walls and roof
- Sturdy and lockable double doors (lock not included)
- Heavy-duty floor
- Top and side windows for extra light
- Weather-resistant and maintenance-free – will not rust, rot or peel
- Look and feel of real wood
- Quick and easy assembly
- Safe and secure storage
- Accommodates heavy items like riding mowers
- Ample airflow to prevent moisture buildup
- Handles snow loads of up to 150 kg/sqm (30 PSF)
- Made from recycled materials

- 10-year manufacturer's warranty

**Manufacturer's Helpline:** 0121-506-0008 or [csuk@keter.com](mailto:csuk@keter.com) for any assembly advice and other tips

Please check contents, footprint and measurements before installation. If you are enlisting the help of a third party to install this product, please ensure that all contents have been received in full and undamaged prior to arranging and paying for installation to take place. If you have damaged or missing parts, please contact our Customer Care team at: [customer-care@costco.co.uk](mailto:customer-care@costco.co.uk)

#### **Premium Installation Service:**

Choose our Premium Installation Service at checkout with your chosen shed and enjoy the comfort of knowing that installation is taken care of by skilled and trained installers.

The installation office will contact you to guide you smoothly through the process and ensure you are happy with your purchase.

Prior to booking your install date (within 10 working days of delivery) the installers will telephone you to check the following:

1. That you have a suitable base for your shed. It needs to be firm, flat & level. We recommend concrete, slabs or a timber frame. Please note that your shed cannot be placed directly onto a base of grass, earth, sand etc as natural movement will effect the stability of the building.
2. That there is enough space to build your chosen shed and that access to the build area is clear of obstruction. A minimum of 24" (61cm) space is needed around the shed for the installers to work in.
3. That the contents have been checked in full and free from damage.
4. Please note that the installation company is unable to carry the shed through your home so if there is not adequate access, provision for this must be made. Please note that the installation service does not include the removal of packaging, but will leave it tidily for the member to dispose of.
