

Demolition Plan and Methodology Statement The Old Printworks, Back York Street BB7 1LT

Plan preparation

1. Location of the building.

The Old Printworks is situated on Back York Street, as shown on the site plan below. The section to be demolished is indicated in blue.

2. Distances from adjacent buildings, roads, structures and schools.

The section of the building to be demolished is directly opposite Kingdom Hall, and abuts Back York Street Road. There are no schools in the locality.

Method of demolition

The demolition will be done by hand from the inside of the building. The section of the building to be demolished will be tightly clad in scarfing with flexible membranes surrounding it to secure the debris.

Waste management plan: Loading, hauling and disposal.

The demolition waste will be taken down inside the building and initially stored on the ground floor of the part of the building that is not to be demolished. It will then be loaded by hand into mini-skips within which it will be despatched to a waste transfer station.

Health and safety plan

1. Site access and security
2. Arrangements for protection from falling materials
3. Location of underground / overhead services

The site will be secured by security netting and scaffolding tight to the building. Vehicles and members of the public using Back York Street will be protected from the demolition works by the netting. No demolition will take place until a survey of any unforeseen services has been checked.

The foundations of the new section will be pile constructed, not encroaching upon any third party land.
