Details of the pre-application advice received

The scheme has received positive pre-application advice from RVBC, email correspondence on 18.07.2023 advises that the proposals will be viewed favourably following a couple of minor amendments as follows:

- Reduction to glazing serving first floor play room as depicted in proposed South-east elevation.

As advised, we have reduced the width of the first floor play room glazing from 5 panes to 3.

- Removal of both side overhang elements of proposed sedum roof canopy. If this is not feasible then removal of the larger side canopy section (North-east elevation) as a minimum.

The flat roof canopies are an important architectural feature of the rear of the main house, extending around both sides of the building. The canopies provide shading to the south-facing glazed ground floor areas, to limit passive solar gain and prevent overheating. We have responded to RVBCs suggestion by reducing the canopy to all 3 sides from 2m to 1.5m to reduce its prominence while maintaining its utility and architectural merit.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff**
- (b) an elected member**
- (c) related to a member of staff**
- (d) related to an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
