drain / river / canal
overhead lines / buildings (not surveyed unless specified)

building / zone
face of cladding / floor bed
canopy

wedge
 fence (see box mainly for height / width / type)
 —||— (gate / security / etc.)
 columns / grilles / corridors / column base

cycle lane / bus lane / white line (see text)
tanks / decoding

line may be as above, if just one edge
i.e. for level specific surveys both sides
measured not to show level change

path / window / door	143
track	142.5
contours	

- only matrioches found on site during survey marked
- other matrioches may be present but covered
- all insect levels taken where possible at main channel
- all surveys to our specification based on RICS (see website)
