Planning Application Reference No.: 3/2023/0973

Address of Development: Rushton House
Main St
Grindleton

Comments: I fully support the installation of solar panels on this property. The installation of solar panels is fully aligned with the drive to decarbonise and move to net zero and should be supported by the Ribble Valley Borough Council.

The panels are not visually obtrusive. In fact when walking past the property they can only be seen over a distance of approx 25m of the Main Street pavement.

The panels do not detract from the historic character of the village and I urge the council to support this application.
