

Planning Statement

In support of an application for a Certificate of Lawfulness of Existing Use or Development (CLEUD) in relation to the conversion and change of use of the former garage to residential at 1 Proctor Fold, Osbaldeston Lane, Blackburn Lancashire BB2 7LU.

Introduction

1. This statement has been prepared to accompany an application for a Certificate of Lawful Existing Use or Development to confirm the lawful status of the former garage building at 1 Proctor Fold, including alterations and extensions undertaken during conversion of the building.
2. The application is made under section 191(1) (a) and (b) of the Town and Country Planning Act 1990 (as amended).
3. The application seeks to establish that the works undertaken at the site and the resulting single dwelling has attained lawful status due to the passage of time.
4. Evidence is presented within the application to confirm when conversion to a single dwelling took place, was completed, and that the building has been occupied since conversion.
5. A plan identifying the land which is the subject of the application is attached.
6. This application seeks a positive Certificate of Lawfulness of Existing Use or (CLEUD) to confirm that the former garage building was converted to form a single dwelling more than 4 years ago and has been in residential use since that time. It has therefore attained immunity from enforcement action due to the passage of time.

Legislation

7. Section 171B of the Town and Country Planning Act 1990 (TCPA) states that:
 - 1) Where there has been a breach of planning control consisting in the carrying out without planning permission of building, engineering, mining or other operations in, on, over or under land, no enforcement action may be taken after the end of the period of four years beginning with the date when the operations were substantially completed.
 - 2) Where there has been a breach of planning control consisting in the change of use of any building to use as a single dwelling house, no enforcement action may be taken after the end of the period of 4 years beginning on the date of the breach.

3) In the case of any other breach of planning control, no enforcement action may be taken after the end of the period of 10 years beginning the date of the breach.

8. Section 191 of the Act refers to Certificates of Lawfulness of Existing Use or Development. Sub-section (1) states “If any person wishes to ascertain whether: ·

Any existing use of buildings or other land is lawful; · Any other operations which have been carried out in, on, over, or under land are lawful; or

Any other matter constituting a failure to comply with any conditions or limitation subject to which planning permission has been granted, is lawful,

he may make an application for the purpose to the Local Planning Authority specifying the land and describing the use, operations or other matter”.

9. Section 191 (2) states: “For the purposes of this Act uses and operations are lawful at any time if-

a) no enforcement action may then be taken in respect of them (whether because they did not involve development or require planning permission or because the time for enforcement action has expired or for any other reason); and

(b) they do not constitute a contravention of any of the requirements of any enforcement notice then in force”.

10. Section 191 (4) states: “If, on an application under this section, the local planning authority are provided with information satisfying them of the lawfulness at the time of the application of the use, operations or other matter described in the application, or that description as modified by the local planning authority or description substituted by them, they shall issue a certificate to that effect; and in any other case they shall refuse the application”.

Period of immunity

11. S171B of the TCPA sets out that for operational development, no enforcement action may be taken after the end of the period of four years beginning with the date when the operations were substantially completed and that where there has been a breach of planning control consisting in the change of use of any building to use as a single dwelling house, no enforcement action may be taken after the end of the period of 4 years beginning on the date of the breach.

The legislation refers to “the change of use of any building to use as a single dwelling house”. If it can be demonstrated that the works were completed more than four years ago and the change of use commenced and continued, then a certificate of lawfulness should be granted in respect of the existing use and development as a whole.

National Planning Practice Guidance states that, “In the case of applications for existing use, if a local planning authority has no evidence itself, nor any from others, to contradict or otherwise make the applicant’s version of events less than probable, there is no good reason to refuse the application, provided the applicant’s evidence alone is sufficiently precise and unambiguous to justify the grant of a certificate on the balance of probability”.

Evidence of satisfying immunity period

12. The former garage was built in 2005. Planning permission application 3/2004/1130 refers. The planning permission is free of any condition that would prohibit the further development of the building. A copy of the grant of planning permission can be found at Appendix 1. The reasons for approval were given as ‘The proposal has no significant detrimental impact on nearby residential amenity nor would it have an adverse visual impact.’
13. In 2016 an application was submitted by the former owner of 1 Proctor Fold for building regulations relating to the development and conversion of the former garage building to residential. Copy documentation recently obtained from the Local Authority can be found at Appendix 2.
14. No application for planning permission was submitted at this time.
15. The conversion works were undertaken during 2016 and 2017. The works were substantially completed by November 2017.

16. The building comprises all of the usual facilities including lounge, dining kitchen, utility room and wc, two bedrooms and a bathroom.
17. The building is in full view of the road. There has been no attempt to conceal the development of the building nor the occupation of the building as a residence. The core of the building remains as it was when it was originally built as a garage, which was approved on the basis that it does not cause a significant detrimental impact on nearby residential amenity nor have an adverse visual impact.
18. The overall appearance of the building remains largely similar to when it was a garage with the garage door having been replaced with windows. There is a small extension to the rear of the building.
19. Since the works which were substantially completed in November 2017, the building has been in continuous occupation.
20. Evidence to establish this is provided in the appendices to this statement. This evidence includes photographs at Appendix 3 and gas bills at Appendix 4.
21. The gas bills identify the first billing period for the separate building, addressed to and identified as 1A, as commencing 29th September 2017. The complete set of gas bills demonstrate usage of gas at a typical residential rate, are addressed the current occupier of the building, are addressed to a separate property and demonstrate continuous occupation to the present day.

Conclusions

22. The building, being the former garage at 1 Proctor Fold, Osbaldeston Lane was converted to a single dwelling and was substantially completed in 2017.
23. This involved a number of physical alterations and an extension in addition to the change of use.
24. No planning permission was applied for, resulting in what the Local Planning Authority suggest may be unlawful development.
25. Section 191 (2) of the TCPA 1990, states that uses and operations are lawful, if no enforcement action may be taken because the time for enforcement action has expired.

26. Section 171(b) states that the relevant time limit for a breach of planning control consisting in the change of use of any building to use as a single dwelling house, is a period of 4 years beginning on the date of the breach.
27. There is clear evidence that the change of use and associated works at the site were substantially completed and the building was brought into residential use in excess of 4 years prior this application being made and that the use of the building as residential occurred for a continuous period of more than four years.
28. The development is therefore immune from enforcement action due to the passage of time and a Certificate of Lawful Development should be issued in line with the requirements of Section 191 (4) of the Town and Country Planning Act, 1990.

DEVELOPMENT Proposed double garage to replace existing 2no. ~~single~~ garages.

PROPOSED:

AT: 1 Proctor Fold Osbaldeston Lane Osbaldeston Blackburn Lancs

Ribble Valley Borough Council hereby give notice that **permission has been granted** for the carrying out of the above development in accordance with the application plans and documents submitted subject to the following **condition(s)**:

1. The development must be begun not later than the expiration of five years beginning with the date of this permission.

Reason: Required to be imposed pursuant to Section 91 of the Town and Country Planning Act 1990.

2. Precise specifications or samples of walling and roofing materials and details of any surface materials to be used including their colour and texture shall have been submitted to and approved by the Local Planning Authority before their use in the proposed works.

Reason: In order that the Local Planning Authority may ensure that the materials to be used are appropriate to the locality in accordance with Policy G1 of the Ribble Valley Districtwide Local Plan and the adopted Supplementary Planning Guidance - "Extensions and Alterations to Dwellings"

Relevant planning policy

Policy G1 - Development Control.

Policy ENV3 - Development in Open Countryside

Summary of reasons for approval

The proposal has no significant detrimental impact on nearby residential amenity nor would it have an adverse visual impact.

Note(s)

1. For rights of appeal in respect of any condition(s)/or reason(s) attached to the permission see the attached notes.
2. The applicant is advised that should there be any deviation from the approved plan the Local Planning Authority must be informed. It is therefore vital that any future Building Regulation application must comply with the approved planning application

Particulars of Approval

The Ribble Valley Borough Council hereby give Notice in pursuance of Section 16 of the Building Act 1984 that the above plans were approved on 11 May 2016

Regulations 1991 of SS. 18, 19, 21, 24, 25 of the Building Act 1984 (S. 10 of the Clean Air Act 1956 (As amended) and SS. 20 and 31 of the County of Lancashire Act 1964 (in each case as applicable) only.

Take notice that if you intend to carry out work on a wall shared with another property, or build on the boundary with a neighbouring property, or excavate near a neighbouring building you must find out whether that work falls within the scope of the Party Wall Act 1996. If it does, you must serve the statutory notice on all affected owners. You are advised to consult your professional agent or a solicitor for further details. (The Local Authority do not deal with this matter)

Further Take Notice of the requirements of the Building Regulations that the Council shall be furnished with notices of completion of various stages of the work, such notices may be submitted by means of the enclosed forms which are to be sent to Building Control Services, Ribble Valley Borough Council, Council Offices, Church Walk, Clitheroe, Lancashire. BB7 2RA.

If the work is not commenced within three years of the deposit of the plans aforesaid, the Council may, by notice given to you, declare that the deposit of the said plan shall be of no effect, pursuant to section 32 of the Building Act 1984.

Date 11 May 2016

Chief Executive
Council Offices, Church Walk,

Welcome

Thank you for choosing us as your gas supplier.

How we calculate your gas cost?

Gas is a natural product. One unit does not always produce exactly the same amount of energy. In order to price energy from gas consistently, we convert your units used into kilowatt hours of energy, using the following formula:

a. metric units used	12 m ³
b. x calorific value	39.4
c. x volume correction	1.0226400
d. ÷ kWh conversion	3.6
e. = kWh	134.30

How we calculate your gas cost?

Gas is a natural product. One unit does not always produce exactly the same amount of energy. In order to price energy from gas consistently, we convert your units used into kiloWatt hours of energy, using the following formula:

a. metric units used	129 m ³
b. x calorific value	39.4
c. x volume correction	1.0226400
d. + kWh conversion	3.6
e. = kWh	1443.79
