

Longridge High School, Preston Road, Longridge, PR3 3AR.

**Grounds Maintenance Method Statement:
Protection of Public Highway**

- Grass cutting operation only to be carried out between April and September.
- Grounds Maintenance Contract requires 20 cuts per year during this 4 month period.
- The contractor must consider the ground conditions prior to accessing the field. If the field is overly wet and the ground soft, the grass cutting operation should be postponed until the ground has had chance to dry.
- A permanent clean hardstanding is to be provided extending 5m beyond the gate into the site.
- Following the grass cutting operation, when leaving the site, the contractor must check over the vehicles and make certain they are clean prior to leaving the site ensuring that no grass or mud deposits are taken onto the road.
- Contractor's vehicle to park on hardstanding within the site and wheels must be checked over and cleaned using brushes and pressurised water sprayer to ensure any grass or mud is removed from tyres prior to leaving the site.
