Good morning Ms Hayes

I write with reference to the above original application and its subsequent variation. Both applications make a **clear reference to a SINGLE storey extension to rear.** However, the extension is a TWO storey one.

Having spoken to **a**, it would appear that the original drawings were for a two storey extension rather than the one storey which is referenced on all of the paperwork.

I had no objection to what I believed was a single storey extension. However, a two storey extension is entirely another matter and one which I would have objected to on the basis that it impacts upon . My concern is on the basis that, there appears to be an absolute lack of transparency, a lack of competency and an area relating to this application.

I would therefore be grateful if you could indicate by return what is the appropriate course of redress in this matter.

Kind regards

1
