Yes

No

Windows

**Existing materials and finishes:**

PVC Double Glazed The existing windows to the front of the house are PVC, double glazed, leaded windows, installed prior to existing owners (over 36 years ago), probably prior to listing. The existing windows to the back of the house are UPVC, double glazed casement, originally installed over 36 years ago, probably prior to listing

**Proposed materials and finishes:**

All windows will be made of timber, painted white to the outside. The new glazing in all the windows is intended to be double glazed for energy saving reasons. However, the double glazing units to be used are to be 'Slimlite' or equivalent 12-14mm, which are much thinner than the standard double glazing units and are accepted by planning authorities of historic towns and cities as being suitable for use in listed buildings and as approved in 3/2017/0388 planning application for Church Street. THE FRONT ground and first floor will be traditional vertical sliding sash windows (corded and weighted) with as narrow as possible glazing bars as per traditional single glazing bars. To maximise the light inside what are dark cottages, it has been decided to use 'two panes over and two panes under'. The second floor window is a reduced scale and not appropriate or feasible for sliding sash and therefore the second principle window type of fixed casement split into three sections (as current design) with centre section having vertical side hung opening (for safety reasons as window is at floor level) is more appropriate. THE REAR first and second floor to be side hung casement with centre vertical openings and flying mullion to ensure ease of usability and conform to current building regulations on fire escapes. The ground floor window will be a fixed casement.

Are you supplying additional information on submitted plans, drawings or a design and access statement?

Yes

No

If Yes, please state references for the plans, drawings and/or design and access statement

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:
