SUBMITTED VIA THE PLANNING PORTAL

Dear Sir/Madam,

**TOWN & COUNTRY PLANNING GENERAL PERMITTED DEVELOPMENT ORDER 2015
SCHEDULE 2, PART 6 – APPLICATION FOR PRIOR NOTIFICATION OF AGRICULTURAL
OR FORESTRY DEVELOPMENT**

**APPLICANT: J YEOMAN C/O INGHAM & YORKE, BROOKSIDE BARN, DOWNHAM,
CLITHEROE, LANCASHIRE, BB7 4BP**

We have been instructed to submit this Prior Approval application for an agricultural building at Ottie Green Farm, Mellor. Please find attached the following documents:

- Application Form
- Site Location Plan
- Elevations

This Prior Approval application has been prepared and submitted on behalf of Mr J Yeoman (hereinafter referred to as the Applicant). The Applicant's farming activities extend to circa **165.52 hectares (409 acres)** the majority of which is permanent pasture.

The proposed agricultural building is a modest size machinery barn, which will be used to store agricultural machinery, equipment, provenders and bedding for the Applicants use. The existing buildings at the holding are not suitable to be accessed by modern agricultural equipment. A purpose-built agricultural machinery storage building is reasonably required to securely store expensive machinery equipment provenders and bedding for use on the holding.

The proposed agricultural building will be sited adjoining the existing farmyard at the Application Site (as shown on the Site Location Plan). The building will comprise a concrete floor, steel portal frame, concrete panels to 1.5m, timber clad to eaves and steel box profile roof, (as shown on the Elevations). The construction is typical of almost all modern agricultural buildings erected on farms. The steel doors provide security and keep the hay and straw dry and safe from extreme weather.

This Prior Approval will be assessed against the criteria set out within Class A, Schedule 2, Part 6 of the Town & Country Planning (General Permitted Development) (England) order 2015. We have set out the criteria below and how the agricultural building satisfies the criteria.

Criteria	Compliance
The carrying out on agricultural land in an agricultural unit of 5 hectares or more in area of:- (a) Works for the erection, extension or alteration of a building; (b) Any excavation or engineering operations, which are reasonably necessary for the purposes of agricultural within that unit.	The proposed building is reasonably necessary for agricultural purposes at the Applicants holding. Although there is an existing traditional agricultural building, it is not capable of being accessed by modern agricultural equipment. Furthermore, the Applicant has a vast amount of agricultural equipment which needs to be store inside in order to prevent it from being stolen or damaged in the extreme weather which is now common of our climate.
A.1 (a)	The holding which the proposed agricultural building is to be located on extends to 34.80 hectares (86 acres) and as such complies with this requirement.
A.1 (b)	No Class Q or S development has been carried out within the last 10 years.
A.1 (c)	No erection, extension or alteration of a dwelling is proposed.
A.1 (d)	The proposed building is designed similar to almost all modern agricultural buildings that can be found at holdings throughout the north of England. It uses materials building materials commonly used in the construction of modern agricultural buildings.
A.1 (e)	The footprint of the proposed agricultural building is 222.83m ² and is therefore within the 1,000m ² permitted under Class A, Schedule 2, Part 6 of the General Permitted Development Order.
A.1 (f)	The proposal is not within 3 kilometres of the perimeter of an aerodrome.
A.1 (g)	The height of the proposed building does not exceed 12m.
A.1 (h)	The proposed building is not within 25m of a metalled part of a truck road or classified road.
A.1 (i)	The proposed building will not house livestock, slurry or similar materials.
A.1 (j)	The proposed building is not connected with fish farming.
A.1 (k)	The proposed building is not for storing fuel for or waste from a biomass boiler or anaerobic digestion system.

The Prior Approval Local Planning Authority (LPA) can require prior approval within 28 days from the date on which the application is received. The LPA can require details of the siting design and external appearance. The proposed site is the most sensible location for the proposed building. The design of

the agricultural building is typical of modern agricultural buildings and the construction materials are those commonly used in the construction of modern agricultural buildings. Therefore, the LPA should have no issues or concerns regarding the siting, design or external appearance of the proposed agricultural building.

The proposed agricultural building is reasonably necessary for the purpose of agriculture within the unit and satisfies all the criteria under Class A, Schedule 2, Part 6 of the General Permitted Development Order.

If the LPA have any queries, then please do not hesitate to contact us and we would be delighted to help.

Yours sincerely,

Chris Cowey
for Ingham & Yorke
