Good afternoon

Re: Planning Permission of the Perimeter Fence – Barnacre Road Primary School

I am writing to you as I am concerned that we are experiencing difficulties in gaining Planning Permission for Barnacre Road School's perimeter fence.

Currently, we endeavour to manage a number of openings to the school premises and this in itself is challenging however, my main concern is the safeguarding and welfare of our pupils. We have [REDACTED]

[REDACTED] building via the gaps in the existing metal fence. To minimise this risk, we inserted cable ties so that it would be [REDACTED] the cable ties to [REDACTED] and will [REDACTED] site. We have increased staff supervision at all social times to [REDACTED]

[REDACTED] Currently, it would be [REDACTED] find this unacceptable.

In conclusion, all staff are on high alert due to significant risk that our current fencing (or lack of it in identified areas) poses.

Barnacre is a community school, we regularly enable the local community to use our premises, our resources and we support activities and local events. I fail to understand why members of this community object to the school safeguarding *their children* from potential danger.

Kind regards,

[REDACTED]
Sue Farrimond
