4a. Eligibility - General questions

Is this application for the installation, alteration or replacement of microgeneration solar PV or solar thermal equipment on:

- a dwellinghouse or a block of flats; or
- a building situated within the curtilage of a dwellinghouse or a block of flats

☒ Yes ☐ No

Note: 'Microgeneration' in this context means that the total installed capacity of any equipment should not exceed:

- in relation to the generation of electricity, 50 kilowatts;
- in relation to the production of heat, 45 kilowatts thermal.

If you have answered no above, then this is not the correct form and you should not continue with this application.

This form is specific to an individual permitted development right. A range of rights exist for different solar panel projects, and you should determine if/which one covers your proposal and if it requires an application to be made.

Is any part of the site designated as scheduled monument?

☐ Yes ☒ No

If you have answered yes above, the proposal will exceed the limits set by legislation. In this circumstance, you should not continue with this application and seek advice from the Local Planning Authority on the best course of action.

Would the solar equipment be installed on a building which is within the curtilage of a block of flats or dwellinghouse which is a listed building?

☐ Yes ☒ No

If you have answered yes above, the proposal will exceed the limits set by legislation. In this circumstance, you should not continue with this application and seek advice from the Local Planning Authority on the best course of action.

Would the development be, so far as practicable, sited to minimise the effect on the external appearance of the building and amenity of the local area, and be removed as soon as practicable when no longer needed?

☒ Yes ☐ No

If you have answered no above, the proposal will exceed the limits set by legislation. In this circumstance, you should not continue with this application and seek advice from the Local Planning Authority on the best course of action.

4b. Eligibility - Proposed placement

Would the proposed solar PV or solar thermal equipment be situated on a:

- ☒ Pitched roof (If selected, please complete question 4c below)
- ☐ Flat roof (If selected, please complete question 4d below)
- ☐ Wall (If selected, please complete question 4e below)

Please select all that apply, and complete the relevant section(s) below as indicated.

4c. Eligibility - Pitched roof

Would the proposed solar equipment protrude beyond the plane of the roof slope?

☐ Yes ☒ No

Note: This is measured from the perpendicular with the pitched roof slope

If you have answered yes above, the proposal will exceed the limits set by legislation. In this circumstance, you should not continue with this application and seek advice from the Local Planning Authority on the best course of action.

If you have answered no above, the prior approval process is not necessary, and you should not continue with this application. Permitted development rights may still apply, subject to all the other eligibility criteria detailed in this question.

Would the highest part of the solar PV or solar equipment be higher than the highest part of the roof (excluding any chimney)?

☐ Yes ☒ No

If you have answered yes above, the proposal will exceed the limits set by legislation. In this circumstance, you should not continue with this application and seek advice from the Local Planning Authority on the best course of action.

If you have answered no above, the prior approval process is not necessary, and you should not continue with this application. Permitted development rights may still apply, subject to all the other eligibility criteria detailed in this question.

4d. Eligibility - Flat roof

NA

Would the highest part of the proposed solar PV or solar equipment be more than 0.6 metres higher than the highest part of the roof (excluding any chimney)?

☐ Yes ☐ No

If you have answered yes above, the proposal will exceed the limits set by legislation. In this circumstance, you should not continue with this application and seek advice from the Local Planning Authority on the best course of action.

Would the proposed equipment be installed on a building situated:

- in a conservation area;
- in an area of outstanding natural beauty;
- in an area specified by the Secretary of State for the purposes of enhancement and protection of the natural beauty and amenity of the countryside;
- in the Broads;
- in a National Park;
- in a World Heritage Site?

☐ Yes ☐ No

If you have answered no above, the prior approval process is not necessary, and you should not continue with this application. Permitted development rights may still apply, subject to all the other eligibility criteria detailed in this question.

4e. Eligibility - Wall

NA

Would the proposed solar PV or solar thermal equipment protrude more than 0.2 metres beyond the plane of the wall?

☐ Yes ☐ No

Note: This is measured from the perpendicular with the external surface of the wall

If you have answered yes above, the proposal will exceed the limits set by legislation. In this circumstance, you should not continue with this application and seek advice from the Local Planning Authority on the best course of action.

If you have answered no above, the prior approval process is not necessary, and you should not continue with this application. Permitted development rights may still apply, subject to all the other eligibility criteria detailed in this question.

If the building is in a conservation area or World Heritage Site, would the solar PV or solar equipment be installed on a wall which fronts a highway?

☐ Yes ☐ No / The building is not in a conservation area or World Heritage Site

If you have answered yes above, the proposal will exceed the limits set by legislation. In this circumstance, you should not continue with this application and seek advice from the Local Planning Authority on the best course of action.

If you have answered no above, the prior approval process is not necessary, and you should not continue with this application. Permitted development rights may still apply, subject to all the other eligibility criteria detailed in this question.

5. Description of the work and impacts

Please describe the proposed development:

8 SOLAR PANELS FITTED TO FRONT ROOF OF HOUSE. FITTED THROUGH THE WARM FRONT GRANT RIBBLE VALLEY. WE CURRENTLY ONLY HAVE 47KG BOTTLED GAS HEATING TO OUR HOME SO THIS WOULD BE A HUGE ADVANTAGE IN COST AND ALSO AS A GREEN ENERGY GOING FORWARD.

1.75m x 1.134m PANEL SIZES

All black in colour

Please provide details of any impact of the solar equipment on the land and how this will be mitigated. This should also identify and address the land's designation(s) as:

- a conservation area;
- an area of outstanding natural beauty;
- an area specified by the Secretary of State for the purposes of enhancement and protection of the natural beauty and amenity of the countryside;
- the Broads;
- a National Park;
- a World Heritage Site.

It's in a conservation area- Panels are on the front slope of the roof - half cell Black module which i feel are less of a visual impact on the conservation area.
