We are writing to object to the revision to scheme pursuant to variation of condition 12 (occupancy) of planning permission 3/2023/0281.

We consider that with the conditions that have been attached as they are, this is acceptable, with the new ones being proposed, it would loosen conditions and enable people to live on site long term, as is already happening at present!

Is the register of occupation as per condition 12 being observed now?

Also, as I understand, no approval was given for the awful urban cantilever gates that have been installed, please correct me if I'm mistaken.

Yours sincerely
