Biodiversity net gain			
Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why they are exempt from doing so.			
Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.			
Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?			
○ Yes② No			
Please add all the exemptions or transitional arrangements that apply and provide a reason why			
Exemption: Development subject to the de minimis exemption (development below the threshold)			
Reason for selecting exemption: The works include the conversion of an existing building only, and therefore will be below the threshold of 25m2 on site habitat. (0m2 actual)			
Note: Please read the help text for further information on the exemptions available and when they apply
