Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

Yes, on the development site

Yes, on land adjacent to or near the proposed development

No

b) Designated sites, important habitats or other biodiversity features

Yes, on the development site

Yes, on land adjacent to or near the proposed development

No

c) Features of geological conservation importance

Yes, on the development site

Yes, on land adjacent to or near the proposed development

No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why they are exempt from doing so.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

Yes

No

Please add all the exemptions or transitional arrangements that apply and provide a reason why

Exemption:

Development subject to the de minimis exemption (development below the threshold)

Reason for selecting exemption:

THE BUILDING IS FOR AGRICULTURAL PURPOSES ONLY

Note: Please read the help text for further information on the exemptions available and when they apply

Details of the pre-application advice received

Further to our recent discussions in relation to the proposed construction of an agricultural building at the above site and having discussed this further with my head of service I have outlined some points below for consideration however please note that the observations below have been provided on the basis of the level of information submitted and the comments contained within this response represent officer opinion only, at the time of writing, without prejudice to the final determination of any application submitted.

As a minimum, the following issues would need to be addressed:

Establishing a functional need for the building

Issues were identified in relation to the building being reasonably necessary for the purposes of agriculture. These issues were as follows:

No confirmation was provided with respect to exactly how many of the 65 sheep were to be lambed

The building comprised a sizeable footprint and no supporting information had been provided to equate the proposed area of building floorspace with the numbers of sheep that would be lambing

The supporting information from the refused application stated that the building was required for 'machinery, feed and shelter' however the application's agricultural information form only makes reference to the building as being required for 'lambing sheep, housing sheep and storing hay and straw', with no reference made to the building being required for the purposes of storing machinery. Therefore the proposed end use of the building was not made clear and no information was provided with regards to how much of the building's floorspace would be allocated for lambing and machinery storage respectively

The total height of the refused building was proposed at 6.7 metres and it was unclear as to why a building of almost 7 metres in height would be required to house lambs and machinery of significantly smaller height

As such, clarification would need to be provided on all of the above issues as part of any future planning application submission. You should also be aware that consultation would also be undertaken with the Council's agricultural advisor who would make a comprehensive assessment in relation to the functional need of the proposed building.

Siting & design

Issues were identified in relation to both the siting and design of the building. Consideration should therefore be given towards the following:

Resite the building considerably closer towards Longridge Road therefore reducing its visual impact within openness of the application site and in turn reducing the required extent of hardstanding for any access track

Significant reduction to the footprint of the building from the refused scheme

Significant reduction to the height of the building from the refused scheme

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- Yes
- No

Ownership Certificates and Agricultural Land Declaration

Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)

Please answer the following questions to determine which Certificate of Ownership you need to complete: A, B, C or D.

Is the applicant the sole owner of all the land to which this application relates; and has the applicant been the sole owner for more than 21 days?

- Yes
- No

Is any of the land to which the application relates part of an Agricultural Holding?

- Yes
- No

Can you give appropriate notice to all the other owners/agricultural tenants? (Select 'Yes' if there are no other owners/agricultural tenants)

- Yes
- No

Certificate Of Ownership - Certificate B

I certify/ The applicant certifies that:

- I have/The applicant has given the requisite notice to everyone else (as listed below) who, on the day 21 days before the date of this application, was the owner* and/or agricultural tenant** of any part of the land or building to which this application relates; or
- The applicant is the sole owner of all the land or buildings to which this application relates and there are no other owners* and/or agricultural tenants**.

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.

** "agricultural tenant" has the meaning given in section 65(8) of the Town and Country Planning Act 1990
