Good morning

I am concerned that you have taken down your comments about the proposed industrial unit at Central garage Warwick street Longridge.

[REDACTED] proposed unit and have seen various large vehicles parked there, all of which have driven in forwards. The only exception has been in the last few days when a large van appears to have reversed in.

Warwick street is regularly impassible by large delivery vehicles at this address.
I hope you will take this into consideration when you hopefully rewrite your comments.

Please find attached photos to demonstrate the above.

Regards
