Dear Nick

Effluent plant update Compleat food group.

As part of our new consent to discharge the compleat food Group Clitheroe have been requested to install a DAF plant, the site has been given two years on the new permit and with this period we must install the new plant to ensure our consent to discharge continues,

As we only have a small footprint to work in and working in conjunction with our Landlord/Water Mark Project & Sunderland & Peacock we have design a new layout that will meet all our need.

Yours sincerely

Name Roy Patchell
