Details of the pre-application advice received

Principle of Development:

In respect of the principle of the use of the building for the purposes of Bicycle Repairs, Gym, Yoga Classes, Physical Rehabilitation Services and storage, Broad support would be afforded to the proposed uses by Key Statement EC2 which supports development that enhances the vibrancy consumer choice and vitality' of the principal settlements. With further support being afforded by Key Statement EC1 which seeks to guide employment development towards principal settlements

Further to the above, Policy DMB1 is also engaged insofar that it relates to development that supports Business Growth and the Local Economy

In respect of the above criterion, the impacts of the proposal would need to be assessed against Policy DMG1 for full support to be afforded to the proposal by Policy DMB1. Should over-riding conflict be found with the inherent criterion of Policy DMG1 (or other policies within the adopted development plan) then the support normally afforded by Policy DMB1 would be fully disengaged.

Highways:

As you will recall from our discussions at our meeting of the 8th of August, the authority considers that the potential highways impacts of the proposal may require further consideration. Particularly insofar that the building to which the enquiry relates does not benefit from any dedicated parking provision. Taking into account that a number of the uses may generate multiple vehicle trips by patrons/customers it is considered that details of maximum numbers at any one time, class times and hours of operation should be provided foreach use within the building to allow for an accurate assessment to be made.

Other Matters:

Taking account that the building lies within close proximity to existing residential receptors and given there is the potential for a number of the uses to potential generate noise disturbance, it is considered that a noise survey/assessment should be submitted in support of any subsequent formal application. I would advise you contact our Environmental Health team to discuss any specific requirements they may have in relation to the approach to be taken in respect of the assessment.

In this respect the authority considers at present it does not have enough information to offer a definitive view in respect of the proposal, particularly in the absence of an operational statement or an informed view in respect of potential local highways impacts resultant from the development.

Conclusion:

At this stage the authority considers there is insufficient supporting information in respect of the operational aspect of the proposal to offer an informed view as to whether the proposal could be supported

Authority Employee/Member
With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
Do any of the above statements apply? ○ Yes ② No
Ownership Certificates and Agricultural Land Declaration
Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)
