5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO? ☒ Yes ☐ No

Are you wishing to carry out works to tree(s) in a conservation area? ☐ Yes ☒ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below.

THE WILPSHIRE GOLF CLUB
TPO 2015 No 1.

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

Trees covered within A1 of The Wilpsire Golf Club TPO 2015 No 1.

• T1 - Sycamore.
To be felled. As per attached report, felling is recommended due to dieback in the right side of the crown. The tree is in a high target area adjacent to the driveway and very close to the house.
There is no available space for replanting of new replacement

7. Identification Of Tree(s) And Description Of Works continued ...

trees, and therefore we would donate to a council run tree planting scheme.

• G1 - Leyland Cypress.

To be reduced in height by approx 3 metres or one third. As per the attached report, height reduction is recommended to reduce windsail of the trees as they are very close to the house. They are also recommended to be reduced to an even and consistent height.

• T2 - Lime.

To be felled. As per attached report, felling is recommended due to the root system causing extensive damage to the main entrance footpath of the house. This has caused all the paths to be a severe trip hazard, due to the root system. There is no available space for replanting of new replacement trees, and therefore we would donate to a council run tree planting scheme.

8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.
