When agreed, working files in Autocad (.dwg or .dxf) or 3D models (.rvt or .ifc) will be released as a secondary file format for information only and for design liaison. As these files are in an uncontrolled format, the third party user must ensure that they independently verify and make their own checks on any data taken from these files. Barnsley Marshall Limited will not be responsible for any errors or omissions occurring directly from data taken from uncontrolled file formats.
