Town and Country Planning Act 1990

PLANNING PERMISSION

APPLICATION NO: 3/2024/0983

DECISION DATE: 12 March 2025

DATE RECEIVED: 29/11/2024

APPLICANT:

Ms Alex Pye
William Pye Limited
C/o Agent

AGENT:

Mr Robert Palmer
PWA Planning
2 Lockside Office Park
Lockside Road
Preston
PR2 2YS

DEVELOPMENT PROPOSED: Variation of condition 17 (SW drainage) on permission 3/2021/1262 for the erection of 4no. commercial units (Use Class E) to allow the verification report to be provided after the commencement of works.

AT: Land at the north of the Chapel Hill site Longridge

Ribble Valley Borough Council hereby give notice that **permission has been granted** for the carrying out of the above development in accordance with the application plans and documents submitted subject to the following condition(s):

1. The development must be begun not later than the 10th October 2025.

Reason: Required to be imposed by Section 51 of the Planning and Compulsory Purchase Act 2004.

2. Unless explicitly required by condition within this consent, the development hereby permitted shall be carried out in complete accordance with the proposals as detailed on drawings:

Location Plan: 4021

Landscape Proposals: 6962.01 Revision: A

Plans and Elevations as Proposed: 4021/3 Revision: G

Site Sections as Proposed: 4021/4

Acoustic Survey (October 2021)

Reason: For the avoidance of doubt and to clarify which plans are relevant to the consent hereby approved.

3. Notwithstanding the submitted details, details or specifications of all materials to be used on the external surfaces of the development hereby approved shall have been submitted to and approved in writing by the Local Planning Authority before their use in the proposed development. The approved materials shall be implemented within the development in strict accordance with the approved details.

Reason: In order that the Local Planning Authority may ensure that the materials to be used are appropriate to the locality and respond positively to the inherent character of the area

4. The use of the buildings hereby permitted shall be used for uses falling within Use Class E - sub activities/uses (c), (d) and (g) of the Town and Country Planning (Use Classes) Order 1987 (as amended), or in any provision, including permitted changes, equivalent to that Class in any statutory instrument revoking and re-enacting that Order) and for no other purposes or sub-activities/uses within use Class E.

Reason: To clarify the nature of the consent hereby approved, to protect against unacceptable impact on neighbour amenity and to ensure uses are not undertaken on site that may undermine the viability or vitality of the Main Town Centre of the settlement of Longridge.

5. Notwithstanding the requirements of the Town and Country Planning (General Permitted Development) (England) Order 2015 and Town and Country Planning (Use Classes) Order 1987 (or as amended by the Town and Country Planning (Use Classes) (Amendment) (England) Regulations 2020 (or in any provision equivalent to that class in any statutory instrument amending or replacing that Order) the floorspace(s) of the use hereby approved (Class E - sub activities/uses (c), (d) and (g)) shall not exceed the following:

Use Class E(c) - 196 sqm
Use Class E (d) - 288 sqm

Reason: To clarify the nature of the consent hereby approved and to ensure the operations associated with the proposed uses/activities do not increase to a degree that would undermine the vitality or viability of the Main Town Centre of Longridge.

6. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (as amended), or any subsequent enactment or re-enactment thereto, no enlargements or other alterations (including the insertion of a mezzanine floor) shall be undertaken to or within the buildings hereby approved.

Reason: To ensure a balance is maintained between commercial floor space and car parking and to ensure the operations associated with the proposed uses/activities hereby approved do not increase to a degree that would undermine the vitality or viability of the Main Town Centre of Longridge.

7. The landscaping proposals hereby approved (Drawing: Landscape Proposals 6962.01 Revision: A) shall be implemented in the first planting season following occupation or use of the development, whether in whole or part and shall be maintained thereafter for a period of not less than 10 years to the satisfaction of the Local Planning Authority.

This maintenance shall include the replacement of any tree or shrub which is removed, or dies, or is seriously damaged, or becomes seriously diseased, by a species of similar size to those originally planted. All trees/hedgerow shown as being retained within the approved details shall be retained as such in perpetuity.

Reason: To ensure the proposal is satisfactorily landscaped and trees/hedgerow of landscape/visual amenity value are retained as part of the development.

8. The development shall be implemented in accordance with the approved Tree Protection Scheme (February 2024) as partially discharged under planning ref: 3/2024/0389.

The agreed fencing/protection shall be erected in its entirety prior to any other operations taking place on the site and shall not be breached nor removed during development.

Furthermore within the areas so fenced the existing ground level shall be neither raised nor lowered and there shall be no development or development-related activity of any description including the deposit of spoil or the storage of materials unless expressly agreed by the Local Planning Authority.

Reason: To ensure the proposal is satisfactorily landscaped and trees/hedgerow of landscape/visual amenity value are retained as part of the development.

9. The development shall be implemented in accordance with the approved Construction Traffic Management Plan as partially discharged under planning ref: 3/2024/0389.

The construction of the development shall thereafter be carried out in accordance with the approved details and timetable.

Reason: To reduce the possibility of deleterious material (mud, stones etc.) being deposited in the highway and becoming a hazard for road users, to ensure that construction traffic does not use unsatisfactory roads and lead to on-street parking problems in the area.

10. No building hereby permitted shall be occupied or brought into use until details for the provisions of Electric Vehicle charging points has been submitted to and approved in writing by the Local Planning Authority. The approved provision shall be installed and made available prior to the first use of any of the buildings hereby approved and thereafter retained.

Reason: To allow for the effective use of the parking areas, to promote sustainable transport as a travel option and to reduce carbon emissions resultant from the proposal.

11. No building hereby permitted shall be occupied or brought into use until a delivery and servicing plan has been prepared, submitted to and approved in writing by the Local Planning Authority. The measures shall thereafter be implemented in accordance with the approved delivery and servicing plan for the lifetime of the development.

For the avoidance of doubt the delivery and servicing plan/details shall include:

"The contact details of a suitably qualified co-ordinator;

"How vehicle arrivals, departures, parking, stopping and waiting will be controlled to minimise any impact on the adopted highway;

"Details of any freight consolidation operation, centre and the delivery and servicing booking and management systems.

Reason: In the interests of highway safety and to minimise the impact of vehicles servicing the development upon congestion.

12. The development hereby approved shall not be occupied or brought into use until such time as the parking and turning facilities have been implemented in accordance with the approved details. Thereafter the onsite parking provision shall be so maintained in perpetuity.

Reason: To ensure that adequate off-street parking provision is made to reduce the possibility of the proposed development leading to on-street parking problems locally and to enable vehicles to enter and leave the site in a forward direction in the interests of highway safety.

13. The development hereby approved shall not be occupied or brought into use until details relating to cycle storage for the approved development has been submitted to and approved in writing by the Local Planning Authority.

These approved cycle storage facilities shall be provided and made available for use prior to the development hereby approved being brought into use. The approved details shall thereafter be retained and kept free of obstruction and be available for the parking of bicycles only.

Reason: To allow for the effective use of the parking areas and to promote sustainable transport as a travel option, encourage healthy communities and reduce carbon emissions.

14. The Surface Water Drainage Strategy shall be implemented in accordance with the approved details as partially discharged under planning ref: 3/2024/0389 namely:

Surface Water Sustainable Drainage Strategy

Supporting letter (received 24.6.24)

Surface Water Drainage Layout (Received 12.9.24)

Reason: To ensure satisfactory sustainable drainage facilities are provided to serve the site in accordance with the Paragraphs 172 and 182 of the National Planning Policy Framework, Planning Practice Guidance and Defra Technical Standards for Sustainable Drainage Systems.

15. The development shall be implemented in accordance with the approved Construction Surface Water Management Plan and Construction Traffic Management Plan as partially discharged under planning ref: 3/2024/0389.

The plan shall be implemented and thereafter managed and maintained in accordance with the approved plan for the duration of construction.

Reason: To ensure the development is served by satisfactory arrangements for the disposal of surface water during each construction phase(s) so it does not pose an undue surface water flood risk on-site or elsewhere during any construction phase in accordance with Paragraph 172 of the National Planning Policy Framework.

16. The development shall be implemented in accordance with the approved details as partially discharged under planning ref: 3/2024/0389 namely:

Surface Water Sustainable Drainage Strategy
Supporting letter (received 24.6.24)
Surface Water Drainage Layout (Received 12.9.24)

Thereafter the drainage system shall be retained, managed, and maintained in accordance with the approved details.

Reason: To ensure that surface water flood risks from development to the future users of the land and neighbouring land are minimised, together with those risks to controlled waters, property, and ecological systems, and to ensure that the sustainable drainage system is subsequently maintained pursuant to the requirements of Paragraph 182 of the National Planning Policy Framework.

17. Prior to first use of the development, a site-specific verification report, pertaining to the surface water sustainable drainage system, and prepared by a suitably competent person, shall be submitted to and approved in writing by the Local Planning Authority.

The verification report must, as a minimum, demonstrate that the surface water sustainable drainage system has been constructed in accordance with the approved drawing(s) (or detail any minor variations) and is fit for purpose. The report shall contain information and evidence, including photographs, of details and locations (including national grid references) of critical drainage infrastructure (including inlets, outlets, and control structures) and full as-built drawings. The scheme shall thereafter be maintained in perpetuity.

Reason: To ensure that surface water flood risks from development to the future users of the land and neighbouring land are minimised, together with those risks to controlled waters, property, and ecological systems, and to ensure that the development as constructed is compliant with the requirements of Paragraphs 172 and 182 of the National Planning Policy Framework.

18. Noise emitted from the site associated with the uses hereby approved shall not exceed the following noise levels measured on the northern and eastern boundaries of the site.

"38 dB LAeq (1 hour) from 0700 hours to 1900 hours

"33 dB LAeq (1 hour) from 1900 hours to 2300 hours and

"27 dB LAeq (15min) from 2300 hours to 0700 hours on any day

For the avoidance of doubt all measurements, unless otherwise stated, shall refer to free field conditions measured at a height of 1.2 (alternative 4) metres above ground level and wind speeds of 3m/sec or below. The sound level meter response time to be set to fast.

Reason: To protect the residential amenities of nearby neighbouring residential occupiers from undue noise disturbance.

19. Prior to their installation details of a scheme for any external building or ground mounted lighting/illumination, shall have been submitted to and approved in writing by the local planning authority. For the avoidance of doubt the submitted details shall include luminance levels and demonstrate how any proposed external lighting has been designed and located to avoid excessive light spill/pollution.

The lighting schemes(s) be implemented in accordance with the approved details.

Reason: To protect the residential amenities of nearby neighbouring residential occupiers and the visual amenities of the area from undue light pollution.

20. The development shall be implemented in accordance with the approved Site Investigation and Ground Assessment (April 2024) as partially discharged under planning ref: 3/2024/0389.

Following completion of all necessary mitigation and monitoring measures identified in the approved documentation, a Validation Report shall be submitted to and in writing by the Local Planning Authority prior to first use of the development.

Reason: To ensure the safe occupation of the site in accordance with paragraphs 183 and 184 of the National Planning Policy Framework.

Note(s)

1. For rights of appeal in respect of any condition(s)/or reason(s) attached to the permission see the attached notes.
2. The applicant is advised that should there be any deviation from the approved plan the Local Planning Authority must be informed. It is therefore vital that any future Building Regulation application must comply with the approved planning application.
3. The Local Planning Authority has endeavoured to work proactively and positively to resolve issues and considered the imposition of appropriate conditions and amendments to the application to deliver a sustainable form of development.

4. This Decision Notice should be read in conjunction with the officer's report which is available to view on the website.

Notes

Right of Appeal

If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

- If you want to appeal against your local planning authority's decision then you must do so within 6 months of the date of this notice.
- If this is a decision to refuse planning permission, or approve with conditions, a householder application, if you want to appeal against your local planning authority's decision then you must do so within 12 weeks of the date of this notice.
- If this is a decision to refuse planning permission, or approve with conditions, a minor commercial application, if you want to appeal against your local planning authority's decision then you must do so within 12 weeks of the date of this notice.

Appeals can be made online at: <https://www.gov.uk/appeal-planning-decision> . If it is a householder appeal it can be made online at: <https://www.gov.uk/appeal-householder-planning-decision> . If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000. The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order. If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your local planning authority's decision on your application, then you must do so within: 28 days of the date of service of the enforcement notice, or within 6 months [12 weeks in the case of a householder appeal] of the date of this notice, whichever period expires earlier. In certain circumstances, a claim may be made against the local planning authority for compensation, where permission is refused or granted subject to conditions by the Secretary of State on appeal or on a reference of the application to him. The circumstances in which such compensation is payable are set out in section 114 of the Town and Country Planning Act 1990.

Purchase Notices

If permission to develop land is refused or granted subject to conditions, whether by the local planning authority or by the Secretary of State for the Environment and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by the carrying out of any development which has been or would be permitted, they may serve on the Council of the county borough or county district in which the land is situated a purchase notice requiring that Council to purchase their interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.
