Please note that due to the nature of this product, we are unable to ship by our usual shipping methods. As a result the actual shipping price may not be accurately reflected during on-line check out. Items usually incur a minimum shipping cost of £36 (ex VAT) and may be higher for some postcodes. Please contact our Customer Services Department on 01803 865913 or customer.services@nhbs.com to obtain a shipping quote. Delivery time is expected to be 2-4 weeks

The Habibat Bat Access Slate has been carefully designed to provide much needed access to roof space for our protected bat species, whilst blending in seamlessly to your slate roof. The Bat Access Slate consists of a standard sized slate, with a capped vent which allows access to roof felt (for roosting Pipistrelles) or roof space (for Serotine, Leisler's, Daubenton's and Barbastelle Bats). We can supply a standard slate, but we also provide a service whereby an exact match for your roof can be achieved if this is desired. In such cases, please let us know your slate code or name at the time of ordering. We will then let you know if slates will need to be provided by yourselves or if they can be sourced by the manufacturer.

These Access Slates are endorsed by the Bat Conservation Trust.

Landscape considerations

To make Habibat a potential roost for a wider range of bat species, it is helpful to consider whether there is nearby linear vegetation features such as hedges and treelines. This is because some bat species use these features for navigation between their roosting site and feeding ground and to avoid flying in open and exposed areas.

Monitoring:

Bats and their roosts are legally protected from disturbance and damage. For this reason only a licenced bat worker should closely examine the Habibat to check for bat usage. However, anyone can check for signs of bat use. This includes the presence of bat droppings on the plinth and surrounding walls and the outflight of bats at dusk.

The Bat Conservation Trust wants to assist with monitoring installed Habibats as a means to research what works for bats. If you have any questions about installing your Habibat please contact the BCT Helpline on: 0845 1300 228

About Habibat

Habibat is a unique partnership between the Bat Conservation Trust, Ecosury and participants/customers/you

Our aim is to provide bat boxes that work for bats and buildings. A portion of the profits from each Habibat sold will be reinvested into the Habibat scheme to improve accommodation for bats. We will be improving knowledge of integrated bat boxes, refining our bat box design and giving our customers guidance on installation.

Habibat is an integrated bespoke bat box, designed to be species specific and fit in the majority of buildings

We believe in producing desirable bat boxes bespoke to your needs whilst developing the best possible artificial accommodation for bats.

Habibat is a monitoring scheme for bat boxes

ust will be working with Habibat customers to collect information on the use and installation and es. We aim to establish a monitoring scheme to determine the factors for successful uptake and
