

Notes:
 Small bird boxes and house sparrow nesting boxes should be placed at a minimum of 2m above the ground whereas Swift nest boxes should be placed at a minimum of 4m above the ground. Ideally these boxes should face north to east to avoid harsh sunlight and strong winds.

Bat boxes should be placed at a minimum of 4m above the ground and should ideally face south to south-east to receive warmth from the sun. Boxes should be placed so that the flight path is not blocked by obstructions.

All boxes should not be placed above windows and doors to minimize nuisance via droppings.

If the boxes suggested are unavailable, boxes of similar specifications but different brands may be used.

Hedgehog gaps should measure 130mmx130mm and positioned at the base of the fence to allow passage of small mammals.

Key:

- Bat access panel x2
- House sparrow nesting terrace x2
- Small bird nest box x2
- Swift nest box x1
- Tree mounted bat box x1
- Hedgehog gap x17

Bat Access Panels:
