Hi Ben,

We have no problems at all with the building works re Planning reference 3/2025/0240 in fact we like the design.

We have one request which is:- we would respectfully ask that all building works strictly comply to local noise regulations and permitted working hours especially given the close proximity to

In addition given the extent of the works specifically the demolition and digging please can extreme care and attention be taken to the mains water supply in through and from Kemple Down house by way of a shared water pipe it is critical that our water supply is not terminated / cut off at anytime.

If you have any questions regarding the points we have made please feel free to contact us directly.

Thank you.
