

6/8 Space Amazon Eco Cycle Shelter Information Sheet

6/8 Space Amazon Eco Cycle Shelter

Depending on the options taken, the 6/8 Space Amazon Eco Cycle Shelter is an ideal choice that's also BREEAM compliant. As assessors recognise efforts to provide suitable bike storage, it'll contribute to your overall sustainability rating. Plus, you'll be encouraging more people to cycle by providing convenient, secure and easy-to-use shelter for their bikes.

Order today and your project will benefit from the improved satisfaction of those who can cycle to their destination, safe in the knowledge they'll have somewhere secure and convenient to leave their bike.

Specification

Part of our ever-popular Amazon Eco range, our smallest version accommodates six to eight cycle spaces. Beautifully clad in a range of timber, it is environmentally friendly with a host of options available to tailor this product to your requirements.

The Amazon Eco Shelter is supplied with a galvanised frame and galvanised sheet metal roof as standard.
