Hi Maya

I've looked at the Martec report reference 202504159772 Whalley Gym dated 15<sup>th</sup> April 2025

Can we condition that the gym is not used at night [23:00 – 07:00hrs] as per the report.

It is frustrating that the occupant of the flat above would not provide access so that the noise could be properly assessed...Consequently the results are imperfect but suggest that it should not be an issue.

Thanks
