Hi,

Following consultation with all members of the parish council.

With reference to application 3/2025/0540 could consideration be given to any overlooking issues.

The application site is on the steep slope part of Longworth Road. There could be some validity in the local resident's objection on the web-site, as the application includes some new dormer windows on the first and SECOND floors.

Would the planners have done or consider doing any geometric tests on how substantial the overlooking is?

Clerk to the Parish Council
