

# ROOF SPACE ANALYSIS – PHOTO EVIDENCE

**Alston House, Land adjacent to Beech House, Alston, Lancashire  
Proposed 2No. Holiday lets.**

This document has been prepared to present photographic evidence of the recently constructed holiday lets at Alston House, on land adjacent to Beech House. The images offer a clear visual record of key roof junctions and detailing, demonstrating that there are no points of ingress or egress for wildlife. All images are taken from a survey conducted in December 2024.
