Comments: I object to the application for 1 storey rear extension to create additional storage for the existing shop, as the shop has already been extended extensively in recent years and being in a Conservation area is already detracting from original small corner shop, with limited parking for extra customers. Already looking at a shipping container is awful. There are 2 large supermarkets within walking distance and so there is no need for extra storage for what is supposed to be a "corner shop". I won't even go into the traffic round the place either!
