

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

The mitigation hierarchy has been integrated into the approach for the development proposal and aligns with the relevant sections of the Biodiversity Net Gain: Good practice principles for development © CIEEM, CIRIA, IEMA, 2016.

All habitats to be significantly affected are of low distinctiveness only.

No designated sites, irreplaceable habitats, priority habitats or habitats of medium or high distinctiveness will be significantly affected.
