Eligibility

Permitted development rights are subject to conditions set by legislation to ensure that only appropriate proposals are eligible. The need to apply to the Local Planning Authority to see if prior approval is required is one such condition.

The questions below will help determine if the proposals are eligible for this permitted development right.

Is your proposal for a change of use from an agricultural building (and any land within its curtilage) to one of the following uses:

- General Industrial (Use Class B2) for the processing of raw goods, excluding livestock, which are produced on the site and are to be sold on the site (which can also be together with goods ancillary to the processing of those raw goods).
- Storage and Distribution (Use Class B8)
- Hotels (Use Class C1)
- Shops; Financial/Professional services; Restaurants and Cafes; Offices; Business; Indoor Sport; Recreation, or Fitness (Use Class E)
- Outdoor sport or recreation, not involving motorised vehicles or firearms (Use Class F2 (c))
- Use for the purposes of agricultural training

☒ No

Description of Proposed Works, Impacts and Risks

Please describe the proposed development:

Agricultural Building with mixed materials

Please provide details of any transport and highways impacts and how these will be mitigated:

At present, agricultural vehicles and machinery are moved on and off site on a daily basis. Livestock and bales are moved in and out of the buildings. The proposal will result in smaller vehicles on and off site, with approximately up to 15 car trips on average per day. There will be no changes to the access routes for the proposed change of use.

Please provide details of any noise impacts and how these will be mitigated:

The proposed use is not noise generating.

Please provide details of any contamination risks and how these will be mitigated:

There are no known contaminants on the site. No changes are proposed to the building.

Please provide details of any flooding risks and how these will be mitigated.

A flood risk assessment should accompany the application where the site:

- is in Flood Zones 2 or 3; or
- is in an area with critical drainage problems (such areas will have been notified to the Local Planning Authority by the Environment Agency).

[Check if your site location is in Flood Zone 2 or 3 online.](#)

Check with your Local Planning Authority to see if your site is in an area with critical drainage problems.

A search of the Government Flood Map for planning designated the property Flood Zone 1. It can be seen that a tiny fraction of the building has been identified as possibly being affected by a 1 in 30 risk of surface water flooding, which only increases marginally over 1 in 100 and 1 in 1000 years. In addition, all parts of the building to be used for offices and egress routes are outside of these risk areas. Given the extremely limited nature of the existing and future surface water flood risk, this matter could be addressed by a suitably worded planning condition, if indeed required.
