Planning Application Reference No.: Application 3/2025/0873

Address of Development: Springwood Drive Whalley

Comments: I feel this application is extremely detrimental to the whole estate. This development would mean the loss of a valued green space within the estate of which we now have none. This field was used for children playing and dog walkers alike and is a huge loss to everyone on the entire estate.

Planning Application Reference No.: 3/2025/0873

Address of Development: land off springwood drive

Comments: *This field has been used for children and dog walkers for the past 8/9 years at least and is an extremely valuable green space for the estate. In fact, he only green space we have currently, and may ever have on here.

*was used for exercise and recreation for children playing football.

*original planning for this space was supposed to be a 1 storey primary school built in to the land, so not to obstruct any views and to offer school placements for the overcrowding of local schools. Not 3 storey houses as application refers.

Address of Development: Springwood Drive, Whalley

Comments: As a resident of the Redrow estate off Springwood drive, I oppose this application as it is taking away the only piece of land that the residents have. This is an area on which children have been able to safely play. It is utilised by local dog walkers and people from the local area. Springwood drive is already an extremely busy road. The building of these houses is only going to add to the traffic on the road and the surrounding estate. This will make it unsafe for the residents, in particular the children and elderly residents. Whalley is already struggling with the increase in traffic. The local schools, dentists and GP surgeries are also struggling to provide services for the ever growing population of such a small village. The constant flooding and drainage issues on the estate are only going to be made worse by adding 6 large properties. This is a ridiculous proposal.
