Following consultation with all members of the parish council the following objection and concerns have been raised.

- Since the last application into planning the homeowners have replaced the flat roof with a pitched one to give it a more sympathetic look and added what must be a 8ft high fence on Springdale road (also in contravention with the usual 6ft permitted height) to try and mask the development.
- Our objections is that both the extention and the fence show blatant disregard for planning consents and the neighbours close by.

With regards to the following concerns would RVBC please take enforcement action to demonstrate why we have planning protocols in place to prevent free for all development like this taking place in our communities.

In addition could consideration be given to if this does have to be taken down, will that result in causing more environmental issues ?
