## Town Council

### **Application: 3/2025/0910**

#### **Considerations by Longridge Town Council**

Can RVBC ensure that the possible intensification of car parking, which is envisaged will be far greater than if the dwelling was for private use, and the impact this may have on existing residents and businesses has been considered.

In addition, can RVBC ensure that all aspects of waste disposal (maybe medical waste) have been considered and are appropriate.
