Objection of the planning request for change of use Application 3/2026/0013.

Good Morning

I can see you have been back to LCC for another report, which concerns me. How can inspector who visits once approve the change, they have not observed the road 24/7 throughout the week to see how busy it gets at the Vets peak times and high school pick up times. This inspector has only requested they have to build 3 parking spaces; this is not enough to cover the staff and visitors that will attend this house throughout the day. Are LCC also turning a blind eye to the 4th car over hanging onto the public footpath because the space isn't long enough?

We have people who live on this road that are 90+ years old, the [REDACTED], to put 2 children with various issues [REDACTED] is just cruel. Monks Drive is not a suitable location for a change of use like this, it will have a massive impact to people's life's, who live on this road.

We already have too much traffic on the entrance to this road due to the Vets, having another business across the road with 6+ cars a day, coming and going is too much and is a safety risk.

With all the new houses being built around here, surely the real demand is for homes not to change current available homes into business premises.

Kind Regards

[REDACTED]
