IN SUPPORT OF LUND APPLICATION - Affordable Housing

To whom this may concern,

I believe Bolton by Bowland is a village which is in need of extra affordable housing. Like many rural communities house prices sit considerably above the national average. This makes the opportunity for younger families to live in the village extremely difficult. As a governor at Bolton by Bowland Primary School any improvement in affordable housing in the area would benefit our rural school.

In support of affordable housing in Bolton by Bowland

Having grown up in the village, it has always been a dream to one day return and live their myself. Unfortunately, housing around this area is out of budget and not affordable for young families. With this in mind, I would be in favour of a affordable housing development being created from old barns no longer in use in hope that young families could move into the village, especially those that reap the outdoors and farming culture. Also, I belive that our wonderful rural school needs more affordable housing in Bolton by Bowland to feed the children in and keep the school thriving. For years there has always been a black cloud of dwindling nunbers and rising costs which then raises concern of rural schools closing. This year ,I have had the pleasure of teaching there and it is lovely to see the children so passionate about their village and heritage. I have been promoting our lovely school in hope to welcome children from further afield and give opportunities to share this amazing village and way of life. To reiterate, I would love for planning to be granted so that people who once grew up here could settle back in their home village. I know there are plenty of us who would love this opportunity if so granted.

Your sincerely,

To whom it may concern

I live in Bolton By Bowland and have done for over 35 years.
We desperately need housing for people with young families to help support the village
+ The school needs more pupils.

[REDACTED] village where we gift chocolates to the over 65s in the
Parish. This year we had over 70 houses on the the list + others who declined the gift.
The cost of an average house in Bolton By Bowland is in excess of £650,000.00 - Young
people with families do not have the money to buy these. We are a village of retired
people.

Unless affordable housing is granted in the area the village will stagnate and shrivel up.
Kind regards
