

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

1. Submission details

4. Biodiversity net gain strategy

4.1 Is the relevant date for the pre-development biodiversity value the same date as the planning application?

- Yes
- No

4.2 If no, what earlier date did you agree with the LPA?

6th May 2023.

4.3 How have you met the guidance on 'what counts towards your BNG'?

[Find out what you can count towards a development's BNG](#)

Planting of trees within application site boundary

Habitat creation or enhancement will be delivered on-site to comply with statutory obligations or policies. The habitat creation is not associated with any other scheme

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

The mitigation hierarchy has been integrated into the approach for the development proposal and aligns with the relevant sections of the Biodiversity Net Gain: Good practice principles for development © CIEEM, CIRIA, IEMA, 2016.

In accordance with the assessed habitat conditions, all habitats to be affected are of low distinctiveness only (i.e. modified grasslands). No designated sites, irreplaceable habitats, priority habitats or habitats of high distinctiveness will be affected.

4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

- Yes
- No

4.6 How will you achieve the target net gain percentage?

- On-site
- Off-site
- Both

4.7 Are any of your on-site enhancements considered ‘significant’?

[Find out what counts as a significant on-site enhancement.](#)

- Yes
- No

4.8 If yes, tell us about the significant on-site enhancements

Include the appropriate planning condition or how you’ve secured the habitat.

4.9 How many off-site biodiversity units do you need to meet 10% net gain?

NA

4.10 Explain why you’re using off-site biodiversity units

Only answer this question if you’re planning to use off-site biodiversity units (250 words).

NA

4.11 Explain why you’re planning to use statutory biodiversity credits

Only answer this question if you’re planning to use statutory biodiversity credits (250 words).
