Hi Les,

Thank you for your email,

I have generated the MPAN reference number for your connection which is [REDACTED] please be aware that it may take up to 24 hours for the MPAN to appear on the national database for your supplier to find.

Kind regards,

Tom Barclay

Hi [REDACTED].

Further to your recent site inspection and my last email I am happy to confirm the following dates for your new connection

Excavation / Digging	23/02/2022
Proposed Jointing**	25/02/2022
Latest date for completion (GSoP date)	04/03/2022

What you need to know:

- These works are pending on the local council's approval for us to dig on the footpath. (if required)
- Those are the soonest available dates in the programme.
- Please book your metering after your 'latest date for completion'.
- Unless otherwise stated full reinstatement should take no longer than 10 working days.
- The work usually takes place over three separate team visits – this is how we share labour & keep costs down.
- We will barrier & make safe any excavation ensuring safe access always
- **Access is required on this day if your meter is going inside the property

Regarding MPANS

In order to arrange your metering, you will need to provide your supplier with your MPAN (meter point admin number); we have been unable to provide your new MPAN as of yet but we can issue this if you can provide us with documentation from your local council which confirms the proposed address.

Your supply will be 'live' after the jointing however I recommend you do not book your metering appointment before the latest date for completion, this is to ensure that we have time to address anything unexpected which may arise whilst / after we open the excavation.

If you need me to change the dates or need any further information, please just reply to this email and I'll be in touch asap.

Kind regards,

[REDACTED]
