Hello my concern about this application is

- 1} will the building block the sunlight from the back gardens of the houses near it as from the plans I can't see how far away from the houses it is.
- 2} will this lead to more buildings built on the rest of the land as the person on the application does not live round here so it seems he might want to maybe make it into a industrial unit sight in the future. As his address is in Warrington
- 3} regarding the houses numbers 81 & 83 I'm sure they won't want to look out there front windows and see a big building which also could block any natural light going into their homes.

If the people in the other properties are ok with this building going a head will you get a guarantee from the person that this well be the only building and the land won't be turned into a industrial unit site in the future.
