For the attention of Emily Pickup

Planning Application No: 3/2026/0262
Proposal: Proposed timber framed car port.
Location: Bramley Croft Clitheroe Road Whalley BB7 9AQ

The plans and highway related information submitted have been viewed and the following comments are made.

It is noted there is no change to the vehicle access with this proposal, and the car port is proposed in the existing car parking area.

There is no objection to the proposal as the Highway Development Control Section is of the opinion that the proposed development will not have a significant impact on highway safety and capacity in the immediate vicinity of the site.

The National Planning Policy Framework (NPPF) states that "Development should only be prevented or refused on highways grounds if there would be an unacceptable impact on highway safety, or the residual cumulative impacts on the road network would be severe" (Paragraph 115). A detailed examination of this application, which included accident analysis, visibility requirements and parking concludes there are no highway grounds to support an objection as set out by NPPF

Kind regards

Tahira
