FOOTBALL FOUNDATION SYNTHETIC TURF PITCH – GENERAL APPEARANCE OF MATERIALS / COMPONENTS

<p>SUMMARY</p>	<p>Below shows the general appearance of variance components that form part of a Football Foundation funded Synthetic Turf Pitch project. It is noted that not every project will require all of these items, and the Design & Access Statement provides information as to the specific components required for this scheme.</p> <p>This document is to be used as a reference to indicatively show Local Planning Authority / consultees how various components will look in practicality, if the development is granted. The proposed components images are from an STP installation and are used as a guide (only) to what should be expected in terms of appearance of the proposed facility.</p>
