Observations/Consideration of Matters Raised/Conclusion:

Permitted development rights are a right to make certain changes to a building or land without the need to apply for planning permission. These derive from a general planning permission granted from Parliament, rather than from permission granted by the local planning authority.

In some circumstances local planning authorities can suspend permitted development rights in their area. Local planning authorities have powers under Article 4 of the Town and Country Planning (General Permitted Development) Order 2015 to remove permitted development rights. While article 4 directions are confirmed by local planning authorities, the Secretary of State must be notified, and has wide powers to modify or cancel most article 4 directions.
