

Natural Stone Cills, Heads and Lintels

All new window and door cills, heads and lintels shall be formed in natural cut stone, as shown on this drawing and the submitted reference image.

The proposed natural stone cills, heads and lintels shall be selected to sit sympathetically with the existing and proposed walling stone, with colour, texture, profile and finish appropriate to the character of the building and surrounding rural context.

The submitted drawing details and reference image are provided for the purpose of discharging the condition relating to natural stone cills, lintels/heads and external stone detailing.

The development shall be carried out in complete accordance with the approved details and retained as such thereafter.
