

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

4.3 How have you met the guidance on 'what counts towards your BNG'?

Find out what you can count towards a development's BNG

Referring to the link above: The habitats onsite are calculated 'in full' for the BNG requirements.

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

A thorough BNG Baseline Assessment to assess UKHab definition and condition and production of proposals to minimise impacts on habitats. No irreplaceable habitats on site (Note Joe Blooms Metric used for BNG Calculation). The proposal is to plant trees to enhance the woodland as well as managing the current woodland to enhance the habitat.

4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

- ☐ Yes
☒ No

4.6 How will you achieve the target net gain percentage?

☐ Off-site
☐ Both

4.7 Are any of your on-site enhancements considered 'significant'?

Find out what counts as a significant on-site enhancement.

- ☒ Yes
☐ No

4.8 If yes, tell us about the significant on-site enhancements

Include the appropriate planning condition or how you've secured the habitat.

10. Prior to the commencement of development, a Biodiversity Gain Plan shall be submitted to and approved in writing by the Local Planning Authority (see further details below at #5 of the Notes section) and implemented in accordance with the approved details. The Biodiversity Gain Plan shall be prepared in accordance with the submitted

Biodiversity Net Gain Assessment titled "Biodiversity gain plan" dated 11/02/2026 and carried out by Joe's Blooms.

Reason: To ensure the development delivers a net gain on site which satisfies Paragraph 14 (2) of Schedule 7A of the Town and Country Planning Act 1990 and which is in accordance with the biodiversity information submitted with the planning application.
