*comments:* It's a sad state of affairs when the local council wish to demolish the history and heritage of their own area. These houses would serve our district better by being refurbished and offered to our local residents who are having trouble accessing the housing ladder because of all the new expensive development that has already saturated the village. Our local services are busting at the seams because of this, traffic volume and safety on Mitton Road is already a serious issue, locals are priced out of the area they grew up in. Once demolished, these historical properties can never be replaced. Come on RVBC Planning Department - show that you truly represent the people of your community the identity of our villages.
