Amended Plans for Proposed Development to rear of Pendle St East

Although our main preference is to have the Timber Cladding all round the bungalow we are willing to compromise by Rendering the Proposed North Elevation and the Proposed East Elevation. This has been highlighted in Yellow on the new plan.

Using more Natural materials such as Stone is not feasible for our budget. As there is quite a lot of houses in Sabden that are rendered we feel that is inkeeping with existing property in the village of Sabden
