

## General Purpose ATV trailer.

This trailer is a general purpose "off road" trailer for use behind quad bikes, ATV's etc.

The trailer is supplied with fixed high mesh sides.

Ideal for carrying animals or bulky loads, straw leaves, grass cuttings, logs etc.

Wide wheels give the trailer good flotation over unfriendly ground.

They also go a long way to preventing "wheel lines" in fine turf.

A ramp tailgate is incorporated in the build.

The floor and solid sides are of high quality phenol ply.

The trailer is fitted with a 50mm ball hitch.

The finish to the trailer is standard silver aluminum gloss paint.

Carrying Capacity - 750 kg

Height of Sides - 1500mm (59")

Overall Width - 1850mm (73")

Overall Length - 3.1m (118")

Wheel Size - 20 x 10-8

Weight - 247 kg

## Specification

**Length - mm**

3001
