8/164 Barn approx. 500 metres west of
Bailey Hall

GV II

Cruck barn, possibly C16th, with walls of sandstone rubble probably C19th, and with slate roof. East wall has a wide entrance with plain reveals and timber lintels. To the left are 2 windows with plain reveals, each having a pitching hole with plain stone surround above. To the left of each window is a door with plain stone surround, with a 3rd similar door at the left. To the right of the main entrance is a window with plain reveals, having a pitching hole with plain stone surround above, and a door with plain stone surround to its left. At the north is a shippon with 3 doors with plain stone surrounds in its north gable. Inside there are 3 cruck trusses on stone pads. The blades are not joined at the apex, but are held together by a collar. They have outriders, and spurs which once supported principal posts. To the north is a roof truss with tie beam, king post, and principal rafters. At the north and south ends are soft wood hay lofts over later shippons.
