5. Listed Building Grading

Please state the grading (if known) of the building in the list of Buildings of Special Architectural or Historic Interest? (Note: only one box must be ticked):

Grade I Grade II* Grade II Don't know

6. Description of Proposed Works

Please provide a detailed description of the proposed works (including existing and proposed materials and finishes) together with details of those part(s) of the building that are likely to be affected. A plan should also be included which clearly identifies the listed building to which your application relates (drawn to an identified scale and showing the direction of North):

Repointing of exterior stone masonry walls including chimney stacks. Essential repair is required for the restoration & maintenance of the exterior stone walls. On the property there is evidence of the following:

- Loose or crumbling mortar joints
- Weathered or open joints to such an extent that water is seeping into the masonry
- A hard, impermeable cement based mortar has been used trapping moisture and accelerating the deterioration of the masonry & is visually unsuitable
- An incorrect style of pointing has been used trapping moisture and accelerating the deterioration of the masonry & is visually unsuitable

Material Specifications
A mortar mix that is compatible with the permeability of the particular stones or bricks in the wall and suitable for the degree of exposure will be chosen. The key principle is that the mortar should be slightly weaker and more permeable than the stone or brick. Following Historic England guidance, mortar samples will be tested against the masonry and a suitable match will be selected.

Access - Erection of scaffolding

Joint Preparation - Careful removal of incorrect & defective pointing using hand tools (hooked tools or masonry chisels) and without damaging the masonry.

Raking out the joint to a depth that's at least one and a half times the width of the joint.

Brush out the joint thoroughly to remove any loose material.

7. Grounds for Application

Please state why you consider that a Certificate of Lawfulness of Proposed Works should be granted for these works i.e. why they do not require listed building consent and will not affect the character of the listed building as a building of special architectural or historic interest:

As identified on the document Appendix A Photographs & Plans of Existing External Walls, only those parts that have been repointed with cement strap style pointing or are in significant need of repair are to be addressed. The finished result will see the external walls returned to the original character of the building.

Unsuitable repointing can affect not only the look but also the durability of masonry and is amongst the most frequent causes of damage to the character and fabric of historic buildings.

The front face of the property currently presents cement strap pointing which is widely acknowledged to be damaging through trapping moisture and causing damp issues. The photographs of the external elevations included within Appendix A were taken on a day of

Please list any supporting documentary evidence which accompanies this application:

9. Authority Employee / Member

It is an important principle of decision-making that the process is open and transparent. For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the local planning authority.

Do any of the following statements apply to you and/or agent? Yes No With respect to the authority, I am:
 (a) a member of staff
 (b) an elected member
 (c) related to a member of staff
